You know, that's not an accident. Earnest Cline has said publicly that Halliday & the Oasis, were inspired by me and Ultima.

Just got done re-watching Ready Player One on HBOMax tonight and Halliday said something that reminded me of my favorite real-life game developer @RichardGarriott He said "I'm a dreamer, I build worlds" and my mind instantly went to Origin systems and Richard Garriott.

@RichardGarriott 95% of the fantasy RPGs have roots in Ultima, Bards Tale, Wizardry. Those games were just that good.

Well, if you're talking about roots:

Oubliette->Wizardry->Bard's Tale, and the lineage is very apparent.

Comparatively, Ultima is the real innovator (it might take -some- influences from earlier titles, but in the whole is clearly its own original thing).

I played almost no other games, especially other RPGs. Few inspirations from other games. Lots from movies, books, etc.
